## Activities at Home

Dear Parents,

The activity for week 3      beginning 27-01-20

is:

### Where do I live?

---

**The activity we will be covering involves:**

- Learning about different kinds of houses from around the world.
  - Listening and following instructions
  - Hand-eye coordination and fine motor skills
  - Comparing sizes of different houses
  - Learning and looking how in different parts of the world we use numbers to identify each house
  - Use their imagination to create their own version of a house or building.
- 

**Our activity includes:**

- We will start off by reading “Homes around the World”. We will then show the children real life photos of different types of houses. This will be followed by a small discussion about where each child lives.

- We will also ask them if they know the name of the road and number of the house or flat where they live.
- Children will have the opportunity to work with different craft materials and construction equipment to create their own version of a house or a building.

---

**You might wish to help your child to explore this topic at home or when you are out and about. Please feel free to approach the teachers for further explanations.**

**Our suggested activities are:**

- Look and read books related to the subject.
- Take a trip around your neighbourhood and look at the different kinds of houses.
- Teach your child the name of the road and the number where you live.
- Look at numbers on each house.
